These troubles, which are the result of colds, are cured by the Ointment, which is used at night, and the Pills, which are used at day. I hear there is a fair prospect of a quiet election this year. An election without a contest would save the ratepayers considerable expense, besides avoiding the turmoil necessarily resulting from a contest.

**LIBERAL MEETING AT ROTHWELL.**  
For the first time in its history, Rothwell has been the scene of a Liberal meeting, which, by the way, has been a most successful one.

A crowded and enthusiastic audience assembled on Friday evening in the Mechanics' Hall, Rothwell, to hear an address from Mr. H. Leatham, M.P., one of the Liberal candidates for this division of the West Riding.

An attempt was made by some energetic young men to sing a song, but the Rothwellians are not yet sufficiently educated in the art of singing, and the attempt was abandoned.

Shortly after seven o'clock Mr. Mason, M.P., entered the room, and amid ringing cheers, he was introduced to the audience.

Mr. Mason, in his address, spoke of the importance of the Liberal cause, and of the need for a more active and energetic support of the Liberal Government.

He then spoke of the proposed alterations to the Poor Law Act, 1875, and of the need for a more active and energetic support of the Liberal Government.

## LIEB'S CHEMICAL FOOD

Is the true strength-giver and health-restorer, nour-  
ishing both body and brain, supplying mental and  
physical power, and nerve and tissue food. It is not  
at all like medicine, but is entirely different, and  
something ever before introduced to the public, and tested

like some heavy, fragrant, and delicious meat.

**LIEBIG'S CHEMICAL FOOD**

Purifies and Enriches the Blood, thereby rendering the skin clear and transparent, sharpening the intellect, strengthening the constitution, re-establishes the base that thoroughly re-vitalises the system, and is the ever-unfailing remedy for debility from whatever cause arising.

**LIEBIG'S CHEMICAL FOOD**

Will also be found highly beneficial in all diseases of the Heart, Chest, Liver, Lungs, Kidneys, Stomach and Intestines, and there is scarcely a disease but what it will cure, and it is the best Food for the Sick.

While all other preparations of Phosphorus are slow and uncertain in their action, taking days and sometimes weeks to produce an effect, this CHEMICAL FOOD (Wise of "Phosphates") acts at once and gives strength in two hours and has been known to restore health in less than a week even after the failure of the usual remedies.

This remarkable preparation not only contains all the material necessary for the foundation of a new constitution and for preventing or curing disease, but also contains everything required for forming flesh, bone, and healthy blood, muscle, flesh, bone, brain, and contains the very elements of LIFE.

This wine is perfectly free from alcohol, and restores to the system whatever it requires, the absence of which often causes the debility. The nourishment as all brought to their natural condition, and the physical system arrested. This wine is certain in its effects, as that water quenches thirst and its benefits are lasting.

The balance of the last period was in the amount of \$1,000,000, which becomes the daily requirement of the present. A further illustration of this is to be found in the energy increase in the consumption of recent years by industry proportionate to the increase in the population. The idea of the vast extent of this industry may be gained from the fact that one firm alone—The Weir, Tappan and Co.—now sell some five million pumps annually.

testimonial from Sir CHARLES  
COOKE, Physician to the Queen.  
I have for some years recommended LIEBIG'S  
CHEMICAL FOOD in cases of general ill-health  
with the most beneficial results. I find it to be a  
very pure preparation, containing amongst other  
things free and unoxidized Phosphorus highly  
diffused, and when used in small quantities

ventured to give fresh life to the languid and exhausted and health, strength, and energy. By its use the dull the sluggish, the lazy and languid *revive* in the morning well and refreshed, with an appetite for food, and fit for study, society or business.

"CHARLES L. COCK, M. D."

**LEWIS' CHEMICAL FOOD**

This remarkable preparation not only contains a material necessary for the body, but also

This wine is perfectly free from alcohol and restores eyes, even whatever is required, the absence of often causes the debility. The secretions are brought to their natural healthy condition, and all decay arrested. This wine is as certain in its action, water is

While all other preparations of Phosphorus are slow in their action, taking days and some weeks to produce an effect, this CHEMICAL (Wine of Phosphates) acts at once and gives strength in one hour, and has been known to restore life in less than a week, even after the failure of usual remedies.

This remarkable preparation not only contains all the materials necessary for the foundation of a new situation and for preventing or curing disease, but involves everything required for forming rich,

and healthy blood, muscles, flesh, bones, veins, etc., contains the very elements of Life. This wine is perfectly free from alcohol, and restores a system whatever it requires, the absence of it often causes the debility. The secretions are brought to their natural healthy condition, and from a decay arrested. The wine is as certain in its use as that water cures the thirst, and its benefits lasting.
